

STRIKE! WE'RE READY!

SFRNA BARGAINING UPDATE #10

SEPTEMBER 27, 2023

WE DELIVERED OUR 10-DAY STRIKE NOTICE TODAY

Today in bargaining, our president Scott Byington, RN, delivered the 10-day notice that we're going on strike from Monday, October 9 through Friday, October 13, with an unconditional return to work on Saturday morning day shift.

A huge turnout of members were there to witness the dramatic moment. RNs in the audience spontaneously spoke up about unsafe conditions in the hospital.

Before that, HR Director Barbara DeGuiseppe stormed out after our bargaining team caught management in a possible instance of bad faith bargaining. When management returned a counter proposal rejecting language we proposed, they simply cut out the paragraph without showing or telling us they rejected it.

For months, we've been pushing for safer patient care and dealing with management's unfair labor practices--like telling us to not wear our union shirts in our own hospital.

SIGN UP FOR YOUR STRIKE SHIFTS NOW!

Now more than ever, it's important we stand together for our patients and our profession.

Stand strong together with your sisters and brothers on the picket line.
