

BARGAINING UPDATE #10

March 6,
2021

HAWAII THERAPISTS

Continuing To Make Progress

Over the past two weeks, our rehab therapist bargaining team met with KP management to continue negotiating our first collective bargaining agreement.

At the table, we reached a significant TA on:

- **Expansion Of Operating Hours** - Requires Kaiser management to meet and bargain the effects of expanding operating hours with the union.
- **Realignment** - Creates a process and protections for health care professionals that are asked to work at a different work location.

Our bargaining team also had further discussions on the internal bid process, presented proposals on education, trades, and self coverage. Additionally, we reviewed management's proposal on management rights and strikes and lockouts.

Please see our newly added bargaining dates to the right. **Stay tuned for more updates.**
