

BARGAINING UPDATE #3

October 2,
2020

HAWAII THERAPISTS

Continuing To Move In The Right Direction

Our bargaining team met with Kaiser Permanente Hawaii management again this week on September 29 & October 1, 2020 to continue bargaining the contract.

We presented strong, common-sense proposals that reflect our values of fairness and job security. We reached a Tentative Agreement (TA) that includes:

- New Employee Orientation - Allows UNAC/UHCP representative to meet with new employees during orientation for one hour to explain the contract, workplace rights, and the Labor Management Partnership.

This week, we had discussions around probationary period. Next week, we intend to continue the discussion to reach an acceptable probation period and secure protections for employees still on probation.

The contract we're fighting to secure will help improve conditions in the workplace and enable us to provide the best service possible.

Stay tuned for additional information!
