

BARGAINING UPDATE #8

January 15,
2021

HAWAII THERAPISTS

Addressing Workload at the Bargaining Table

Our rehab therapist bargaining team met with management this week to discuss workload.

We had tough conversations with management and presented strong proposals that takes into consideration each of our unique work settings and will allow us to provide quality patient care in each area:

- Inpatient
- Outpatient
- Home Health

Highlights of the Workload Proposals:

- Opportunities in staff meetings to address workload,
- Ensuring equitable distribution of work,
- Ensuring a process to develop agreements,
- Providing clear expectations of workload and patient care.

Your Bargaining Team will be reaching out to you to gather feedback and ideas on how to show unity and support on these proposals.

Please review our updated bargaining dates.
