

BARGAINING UPDATE

NOV 25 & 26, 2019

THIS IS HOW MANAGEMENT TREATS “FAMILY”

At the bargaining table on Monday and Tuesday, UNAC/UHCP-PRNA’s bargaining team held fast to our commitment to fight for proposals that protect the patients in our community and enable us to provide them the best care.

We have had intense discussions about policies and concerns that have had a significant impact on Parkview RNs. However, AHMC Healthcare’s second economic proposal offers:

- **Less than competitive wages,**
- **An unbalanced cancellation policy that continues to favor costly travel and registry nurses, and**
- **Increased float units for RNs - even if it means compromising patient safety.**

This proposal still fails to address the growing turnover rate problem at Parkview and will put our patients at risk. Our PRNA bargaining team will continue to negotiating for a strong contract that preserves patient safety and respects our service.

Thank you to everyone who has attended bargaining and supported our PRNA bargaining team; Your presence shows management our unity and strength. Come out to the next bargaining sessions:
