

# BARGAINING UPDATE

DEC 17 & 18, 2019

## WE'RE UNITED TO PROTECT AND FIGHT FOR OUR PATIENTS

Our Parkview Registered Nurses Association bargaining team committed to responding to AHMC Healthcare in a timely manner—and worked until 2:00 a.m. to do so. Yet, management failed to come to the bargaining table with a proposal that respects the service and care we provide for Parkview patients.

We continued to have intense discussions about policies and concerns that have had a significant impact on Parkview RNs. Unfortunately, management’s proposal still fell short by offering:

- Non-competitive wages that fail to keep experienced RNs and new graduates from leaving Parkview for better livelihoods
- A mandated change in the definition of what qualifies as a weekend for night shift RNs
- A float unit for RNs that compromises patient safety

Our PRNA bargaining team will continue to negotiate for a strong contract that preserves patient safety and honors the vital care we provide to the Parkview community.
