

BARGAINING UPDATE #9

SEPT 19, 2019

SHARP HAS THE MONEY AND THE MEANS TO RECRUIT, RETAIN, RESPECT RNs

Negotiations with Sharp HealthCare continued Thursday with many of our proposals remaining on the table. Management responded with numerous takeaways and language that would set us back many years.

We know that the best patient care requires experienced registered nurses. We know that Sharp HealthCare can afford to recruit and retain registered nurses and treat us with respect. We expect this contract to ultimately reflect the value that we provide to Sharp patients in this community.

Three things remain clear:

- Sharp has money.
- Sharp has not projected any financial losses.
- Sharp has the means to make improvements.

We extended the contract to October 7, with bargaining sessions set for the next two weeks. See the detailed calendar on the other side. We need to stay focused and united.
