

# BARGAINING UPDATE #16

December 24,  
2020

## UNITED NURSES AND HEALTH CARE EMPLOYEES OF HAWAII

**UNHCEH**

**UPHI**

**HI Therapists**

# Compensation on the Table

Our UNHCEH bargaining team met with management on December 22 and 23 to continue negotiating over economics.

While important differences remain, we're currently collaborating to create an up-to-date wage grid that includes new positions as well as higher wages. More competitive compensation will improve the quality of patient care at MHS.

Once management finishes costing out the financial impact of their latest offer, we anticipate receiving a more complete proposal. We will continue to focus on our priorities as we await management's comprehensive compensation package offer.

We reached mutual agreement to extend our contract and to continue negotiations in the new year.

Our bargaining team is standing strong for a new contract that will result in improvements at MHS and will ensure that quality patient care is delivered.

Please stay tuned for more information.
