### Fighting For A Contract That Honors Our Service

The United Pharmacists of Hawaii (UPHI) bargaining team continues to meet with KP management in an effort to reach a settlement on a first contract.

Last week (August 11 — August 13), the parties engaged in intense discussion around the filling of vacancies. This week, we have three sessions scheduled and intend to expand the discussion to include the protection of our work.

Your bargaining team will continue to keep fighting to secure a fair contract that enables us to provide the best service possible. **Stay tuned for more updates!**
