Fighting To Change The Status Quo

The United Pharmacists of Hawaii (UPHI) met again on September 2 & 4, 2020 with KP management to reach a settlement for a first contract.

Thus far, we have continued to have tough conversations with management regarding workplace improvements and have also added new bargaining dates to the calendar: October 14, 16, 20, and 21.

Though the process of reaching this first contract has been hard-fought, we have a strong, unwavering interest to change the status quo to protect our members and their service.

This week, your bargaining team will continue to fight for strong, common-sense proposals that reflect our values of safety and fairness that enable us to provide the best service possible.

Stay tuned for more updates!
