HI Therapists

Pushing to Secure A Strong Contract

The United Pharmacists of Hawaii (UPHI) met again on September 29 & October 2, 2020 with KP management to continue bargaining for our first contract.

Last week, we continued negotiating to reach an agreement on bargaining unit work and expanded the discussion by introducing new proposals on education, leaves of absence, and hours of work and overtime.

Next week, our bargaining team will continue striving to secure agreements on these key issues.

This process of reaching this first contract has been intense and hard-fought; however, we are committed to changing the status quo and having a say in the issues that impact us in the workplace.

Stay tuned for more updates!

Upcoming Bargaining Dates: October 14, 16, 20, and 21
