

HERE FOR THE COMMUNITY

NOVEMBER 30, 2018

Parkview Registered Nurses Association members stood up for the future of Parkview on Thursday, November 29 at the California Attorney General's public hearing on the sale of Parkview to AHMC Healthcare.

With several members in attendance, UNAC/UHCP-PRNA supported the sale and called for a commitment by the new owners to address the chronic RN turnover and vacancy rate at the hospital. We explained how quality and continuity of care for our patients requires improved recruitment and retention of registered nurses committed to Parkview.

“Our nurses are patient and community advocates. As advocates, we say: **Keep this hospital open for this community.**”

Penny Brown, RN

“It’s time for Parkview to be **better staffed, better equipped, and better prepared** to serve this community.”

Yvette Harris, RN

“The community around us are working class people. **They deserve the best care that we can possibly give.**”

Viera Daniels, RN
