

THUMBS DOWN TO PRIME'S 2% WAGE OFFER!

Management proposed a 2% wage increase for FT and PT yesterday—with nothing for per diems, and no step movement on the grid.

Under their proposal, the hiring grid would stay the same—no raises to the grid.

Management acknowledges we are the lowest paid hospital locally. How can we retain RNs with a 2% increase—after a three-year freeze and a 12% cut?

GOOD NEWS

We gained a tentative agreement to add PICC, MCCN, Interventional Radiology/Angio, and Dialysis to Specialty RNs.

“It’s a very disappointing day. It feels like management doesn’t care about what we do and how much effort and time we’ve spent taking care of our community. It’s a big slap to our faces.”
