GENERAL MEMBERSHIP MEETING SUCCESS!

JULY 8, 2022

More than 200 members attended our first in-person GMM in two years—where we learned about our important upcoming negotiations over wages for 2022 and 2023. Our bargaining team secured this wage re-opener bargaining cycle because Maui Health sought to implement no wage increases in the final two years of our contract. Through our collective efforts, we opposed this and won the ability to bargain wages now for these years—a significant opportunity for us to support the recruitment and retention of excellent staff to provide our community members the patient care and services they deserve.

UNITE TO SUCCEED IN BARGAINING: HERE'S HOW!
